ABOUT ME

Avid IT student eager to apply skills in software development, network management, and cybersecurity. Passionate about learning, contributing to innovative projects, and seeking a challenge in the field of Information Technology.

EDUCATION

2021 - Present

Cebu Institute of Technology - University

Bachelor of Science in Information Technology

As a fourth-year student pursuing a Bachelor of Science in Information Technology, I have built a strong foundation in computing and technology. My studies have covered software development, data management, and cybersecurity, complemented by hands-on projects and team collaboration.

2019 - 2021

Cebu Institute of Technology - University

Senior High

Focused on the STEM track, I developed a strong foundation in science, technology, engineering, and mathematics. The curriculum emphasized analytical thinking and problem-solving through advanced coursework in mathematics, physics, and computer science.
